Indications for an Ultrasound

**Fetal Echocardiogram** CPT Codes 76825, 76827, 93325 (All three billed for the Echocardiogram)

**Indications**

**Maternal Indications**
- Alcohol Dependence
- Autoimmune antibodies (anti-Ro (SSA)/Anti-La (SSB))
- Epilepsy
- Familial inherited disorders
- Maternal congenital heart disease or first-degree relative with congenital heart disease
- In-Vitro Fertilization
- Metabolic disease (Diabetes mellitus)
- Systemic lupus erythematosis
- Teratogen exposure (e.g. Lithium, paroxetine or retinoids)

**Fetal Indications**
- Abnormal cardiac screening examination
- Abnormal heart rate or rhythm
- Extra-cardiac anomaly
- Fetal chromosomal anomaly
- Hydrops
- Increased nuchal translucency
- Monochorionic twins
- Single umbilical artery
- Unexplained severe polyhydramnios
- Monochorionic twins or twins with twin-twin transfusion syndrome

**Targeted Anatomy cont.**

**Fetal Indications**
- Abnormal Fetal heart rate
- Central Nervous Abnormalities
- Chromosomal Abnormalities
- Hereditary disease in family possibly affecting fetus
- Known or suspected fetal abnormality
- Oligohydramnios
- Polyhydramnios
- Poor fetal growth
- Suspected damage to fetus from drugs
- Suspected damage to fetus from other disease in mother
- Suspected damage to fetus from radiation

**Transvaginal Ultrasound in Pregnancy** CPT Code 76817

**Indications**
- Abnormal cervix (Previous LEEP, Polyp)
- Abnormal vaginal bleeding
- Cervical incompetence or shortening
- Ectopic pregnancy
- Placenta Previa
- Placental abruption
- Spontaneous abortion
- Threatened miscarriage

**Targeted Anatomy** CPT Code 76811

**Maternal Indications**
- Advanced Maternal Age
- Congenital Cardiovascular Disease
- Diabetes (Pre-gestational)
- Drug dependence complicating pregnancy
- Infectious/parasitic or viral diseases complicating pregnancy
- Isoimmunization (Rh, ABO)
- IVF Pregnancy
- Malaria
- Morbid Obesity (BMI 35 or greater)
- Multiple gestation
- Umbilical cord complications

Quick Look and Follow up ultrasounds
76815 and 76816 Indications

- Abnormalities in fetal heart rate
- AMA
- Anatomic Survey
- Anemia
- Bariatric surgery
- Breech/transverse presentation
- Cardiovascular disorders
- Central Nervous
- Cervical Incompetence
- Chromosomal
- Coagulation defects
- Congenital Abnormalities of uterus
- Damage from radiation
- Damage to fetus from drugs
- Decreased fetal movements
- Diabetes (Preexisting and gestational)
- Epilepsy
- Excessive fetal growth
- Hemorrhage in pregnancy (early/late)
- Hereditary disease affecting fetus
- History of Loss
- History of PTL
- Hyperemesis
- Hypertension (includes Preeclampsia)
- Infections of genitourinary tract
- Infectious/Parasitic condition (i.e Syphilis, Malaria, HIV)
- Intrauterine Death
- Isoimmunization (Rh, ABO)
- Known for suspected fetal abnormality
- Labor
- Liver/biliary tract disorders
- Mental disorders
- Multiple gestation
- Obesity
- Oligohydramnios
- Placenta Previa/Placental Abruption
- Placental abnormalities
- Polycystic Ovarian Syndrome
- Polyhydramnios
- Poor Fetal growth
- Poor obstetric history
- PPROM
- Previous C/Section
- Thyroid Dysfunction
- Tobacco use
- Uterine Fibroids
- Viral disease in mother affecting fetus

Biophysical Profile
76818 and 76819 Indications

- AMA
- Asthma
- Congenital Cardiovascular disorder
- Diabetes Mellitus
- Fetal Heart rate abnormality
- Gestational DM or abnormal GTT
- Hemorrhage in pregnancy, (Including abruption placentae)
- Hypertension
- Isoimmunization (Rh, ABO)
- Known for suspected fetal abnormality
- Multiple Gestation
- Oligohydramnios
- Other cardiovascular disease
- Placenta Previa
- Polyhydramnios
- Poor fetal growth
- Renal Disease W/O HTN
- Systemic lupus erythematosus
- Thyroid Dysfunction
- Viral diseases

Middle Cerebral and Umbilical Artery
Dopplers 76820 and 76821
Indications

- Fetal-maternal hemorrhage
- Isoimmunization (Rh, ABO)
- Poor fetal growth
- Suspected damage to fetus from viral disease in mother
- Twin-Twin Transfusion Syndrome
- Viral Diseases in mother

Nuchal Translucency 76813
Indications

- NT Screening
- AMA
